FORCING THE WAR.

Plans of the Administration Contemplate Vigorous Action.

Washington, June 13—The plans of the administration are now showing definite shape. Forming the rendevous near Key West marks the beginning of the general invasion of Cuba. The Porto Rican campaign goes forward on the heels of the Santiago movement, if not simultaneously. The The third expedition to Manila will sail probably Wednesday. If overtures of peace have been made by foreign representatives abroad none have been received here and no attention is given to peace talk. The Guatanamo skirmish is being discussed. Despite the report to the contrary one cable to Cuba remains uncut. When the Administration is assured that troops have landed in Cuba three expeditions will be enroute to Manila and the army ready to capture San Juan, the capital of Porto Rico.

A Grand Institution.

In the dull summer season, vacation time for the college girls and boys, is a good time to think awhile and reflect on the merits of the different colleges of the state. The good work of the State Normal and Industrial College needs no commendation at our hands.

The institution was founded and stands firmly on the idea that women should have equal educational advantages with men and that their education should be of a kind that will aid them in successfull grappling with life's problems—not arithmetical or algebraic problems alone—but the problem of fighting life's battles, a kind of education that will not only enable the fair young women to know what to do but to know how to do it.

This is a part of the great mission of the State Normal and Industrial College, and the mission is being fulfilled. It is a grand institution and its work is appreciated, if we may judge by the large matriculation during the year just closed. Announcements for the ensuing year will be found in the advertising columns.

Telegraphers Wanted.

Major Thompson, of General Merritt's staff, telegraphs tonight to Adjutant General Cowles: "If you can enlist them and send them out here, should much like to have all experienced telegraphers of integrity and character you can get. Ask authority of Gen Greely, Washington, D. C., to enlist them." Gen. Cowles will be glad to get the names of telegraphers who desire to go. Jay Sims, now of First Regiment, will apply for transfer to go to Gen. Merritt as telegrapher. Roediger and and Harris, Charlotte telegraphers, and Greening, Seaboard Air Line telegrapher at Durham, all wish to go. All these experts wanted by General Merritt are of course wanted to be operators of government telegraphs under Governor General Merritt in the Philippine Islands. No doubt there will be a number of other applications for this service made to the Adjutant General. —Col. Olds' Correspondence.

The Superior Court.

Although the court is at work on the civil docket, the state docket is still open in order, as we understand it, to allow certain parties the matter of costs. One of these is the "detective" Redmon, who was mentioned in these columns some weeks ago, since about which time he has been spending the heated term in the county jail.

The court is today working on the case of Sarah Owens againt the Southern Railway tor $2,000 damages sustained in alighting from the train at High Point through the alleged carelessness of the railroad employes. The case will occupy the whole day.

Off for the Mountains.

Prof. Chas. L. Raper left High Point this morning for Asheville, where he will attend the meeting of the Teachers' Assembly. He takes part in the exercises there tonight. From Asheville he will go to Brevard for a week or two.

We wish him a pleasant sojourn among the craggy heights and along the mountain brooklets of the "land of the sky" during these hot days. He will spend some time here later in the summer and then will probably go to Columbia University, N. Y., for a couple of years. He has a scholarship there and at Johns Hopkins also.

At Wilkesboro.

We learn from a letter received from Wilkesboro that the delegates to the W. C. T. U. convention are being most delightfully and hospitably entertained by the good people of that little mountain town. The air is cool and invigorating. Many distingnished visitors and delegates are present and the convention promises to be one of the most pleasant and profitable ever held in the state.

FIERCEST BATTLE OF WAR.

Another Furious Attack on The Marines at Caimanera.

SPANIARDS AGAIN REPULSED.

Sampson's Report Received—The Second Manila Expedition Embarking—Santiago Party.

By Cable to THE TELEGRAM.

Mole St. Nicholas, June 14—Another battle was fought between the Spanish land forces and the Americans on land and sea at Caimanera on Sunday night and Monday. It was the fiercest fight of the war thus far. In it were engaged on the American side the 900 marines that had been landed from the transport Panther, and also the ships Texas, Marblehead and collier Aberenda.

Camp McCalla and the crest of the hill where the American marines are entrenched was attacked by the Spaniards in overwhelming numbers. Unlike the first fight it was not a surprise and the marines were at a disadvantage only in numbers. They stood their ground stoutly and repulsed the enemy. The launches of the Texas and Marblehead, with rapid fire guns aboard, did heroic work in shelling the enemy. The big guns of the Marblehead and Texas meantime were ripping the undergrowth and the trees of the forests from which the enemy were attacking. The battle lasted the whole of Sunday night.

ENEMY REPULSED.

Port-au-Prince, Jamaica, June 14—There was more fighting yesterday between the marines at Fisherman's Point, on Guatauamo bay, and the Spanish bushwhackers. The Spaniards were repulsed by the marines. The loss is unknown.

The marines have been reinforced and another flag raised.

SAMPSON'S REPORT.

Washington, June 14—The secretary of the navy received the following dispatch from Admiral Sampson this morning:

Mole St. Nicholas, June 13—Lieut. Blue has just returned from a detour of seventy-five miles to observe the Spanish fleet in Santiago harbor. He reports that all the Spanish vessels of the Cape Verde squadron are there. The Spaniards have vigorously attacked the camp at Guantanamo and the outposts. Four marines were killed in the encounter and their bodies terribly mutilated.

(Signed) Sampson.

WHERE THE ARMY IS.

Key West, June 14—The Santiago army of invasion is now well down the Bahama's channel. By tomorrow it will round Cape Maysi, the extreme eastern point of Cuba, and bear up for Sontiago.

MORE TROOPS FOR MANILA.

San Francisco, June 14—Troops are forming for the second expedition for Manila which is embarking in four transports. It is the intention of Gen. Merritt to sail by tomorrow. A large quantity of property and stores belonging to the regiments and battalions assigned to General Green's expedition have been loaded aboard the transports.

Go east and see the largest warships now in construction, namely Kentucky and Kearsarge. If you want a good time at the sea shore don't miss this trip. $3 50 to Norfolk and return.

Put Off Again.

Tampa, June 13—General Coppinger, in command of troops, has left here. It is believed he will take the next expedition, destination being Porto Rico. Lee's corps is not likely to be sent to Porto Rico, but to go to Cuba when the time comes to strike Havana.

Surf bathing, boat riding. There is no place like Ocean View, only a few moments ride from Norfolk. Round trip to Norfolk $3.50.

Lieut. Leary, of the Sixty-ninth regiment, New York volunteers, received several painful wounds in the head yesterday while in a brush with the local police at Tampa.

James Johnson, colored, a member of the Twenty-fourth Infantry, has been convicted of murder in the second degree by the Circuit Court at Bartow, Fla. Sentence has not yet been pronounced.

ANNA GOULD'S HUSBAND

Fought a Duel This Morning With a French Editor.

By Cable THE TELEGRAM.

Paris, June 14—Count de Castellane, the husband of Anna Gould, fought a duel this morning with Henri Turot, the editor of the Petite Republigue Francaise.

Three rounds were fought, swords being the weapons used. Turot was wounded in each round, the wounds being only slight in the first two; in the third a severe wound in the right forearm ended the duel.

The duel was the outgrowth of Editor Turot's comments on an act of infanticide by a servant in the count's household.

Leo. XIII Offers His Service.

Rome, June 13—In consequence of the gravity of the situation in the Philippine islands the Pope has telegraphed to Queen Regent Cristina placing his services at her disposal if she thinks the moment has arrived to invoke the intervention of the powers in favor of Spain.

The Queen Regent in reply telegraphed, thanking his Holiness and saying that at the opportune moment she should feel that his offer was very precious.

At the A. & M. College.

Tonight at the A. & M. College the initial meeting of the Teachers' Association will be held. Senator Scales, State Supt. Mebane, Prof. G. E. Davis, and President Dudley will deliver addresses. Quite a number of teachers have already arrived.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by C. E. Holton.

LEE TO CAPTURE HAVANA.

Ordered to Mobilize an Army of Forty Thousand Men.

WAR PLANS IN THE CABINET.

Is Germany Menacing the Philippines?—Havana Batteries Fire On The American Fleet.

By Wire to THE TELEGRAM.

Washington, June 14—General Lee has received orders from the war department to prepare an army of 40,000 men to move on Havana. It is believed that he can have the army ready to sail in thirty days. A number of military camps will be drawn on to supply his contingent.

AS A SAFEGUARD.

Washington, June 14—Secretary Gage made the statement today that a safe-guard has been adopted to prevent a shrinkage in currency by the subscriptions to the war bonds. The safeguard lies in the giving of large subscribers the privilege of making payment in installments forty days apart by creating as necessary national bank depositories so that the funds derived from the bond sales may remain in the localities where they were derived until they are needed.

HAVANA FIRES ON BLOCKADERS.

Key West, June 14—At noon on Monday the batteries at Sandigo and Morro Castle opened a terrific fire on the American squadron blockading the port of Havana. It is supposed that the intention was to draw the American fleet into a fight but Commodore Watson refused to allow his ships to respond.

BEEF FOR BLANCO.

Kingston, Jamaica, June 14 — A Spanish ship is expecting to sail from this port for Batabano or Cienfuegos tomorrow with a $70,000 cargo of beef and corn for General Blanco.

GERMANY'S ATTITUDE.

Washington, June 14—The state department refuses to accept the report of the concentration of Germany's eastern squadron at Manila for the purpose of menacing American control in the Philippines.

ON THE CHESS BOARD.

Washington, June 14—The secretary of war has laid before the cabinet the fact that the invading army intended for Cuba will reach Santiago de Cuba on Thursday of this week; the first Philippine expedition should arrive at Manila about now; the second Manila expedition is going aboard transports at San Francisco and will sail tomorrow; the troops for the Porto Rican campaign are being mobilized.

HARD LINES AT MANILA.

Madrid, June 14—The government has received a despatch from Gen. Rios in the Philippines saying that although seven steamers had been sent toward Luzon he was still without news from Manila. The enemy has severed the line of communication. Gen. Rios added that he was taking measures to insure supplies for his troops and the inhabitants from the resources of the island.

EXPLANATIONS NEEDED.

Washington, June 14—It is officially announced today that the transports under General Shafter have not sailed for Santiago de Cuba. No explanation of this statement is given.

Mr. Leiter Lights.

By Wire to THE TELEGRAM.

New York, June 14—An attachment was issued against the property of Joseph Leiter for nearly $800,000 advanced to him by the grain dealers Leabke, Callaghan and Knight of this city.

The San Francisco Uninjured.

By Wire to THE TELEGRAM

Provincetown, Mass., June 14—The cruiser San Francisco is apparently uninjured by running aground.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by C. E. Holton.

LATEST FROM THE FLEET.

Not Expected to Arrive at Santiago Until Saturday.

Washington, June 13—The last of the transports carrying troops to Santiago left Tampa this afternoon. It has been arranged that that there shall be no delay at the rendezvous, which is understood to be Dry Tortugas, transports and convoys falling in together and proceed without slacking speed. When the combined fleet has begun the voyage to Santiago there will be a grand procession of forty-six vessels. The war department made public today the number and character of troops composing the expedition. General Shafter's corps is composed of 15,337 officers and men including 19 infantry regiments, four light batteries, two seige batteries, two companies of engineers, a detachment of signal corps and 48 cavalry troops dismounted.

Fate of the Philippines.

London, June 13—A despatch from Vienna to the Daily Telegraph says that a high diplomat, in conversation today, declared that differences must arise between America and Europe over the Philippines.

He added that if England takes sides with the United States on this subject the other powers engaged in East Asia will be second best.

The despatch quotes from the Fremdenblatt, which says that the nearer approach of England and America must be reckoned with, whatever may be thought of the eventual possibility of a formal alliance between the two countries.

MAKING RACES OVER.

Mr. Charles Johnston, an Englishman of wide practical experience with England's methods in India, in writing of the "Philippines in History," says many things that are worth while to be considered by Americans at this time. Mr. Johnson asserts that the conflict between Europeans and Orientals is an utterly irreconcilable one in social life, civil and religious ideals. He declares that the ties between Indians and Anglo-Indians are becoming weaker year by year and adds: "In India the English hold the natives for pride. None of the wiser heads among them believe they are doing any real good. They have lost all genuine faith in their mission. In the Philippines the Spaniards held the natives for gain and all kinds of plundering and cruelty resulted. And whatever nation takes the Spaniards place, if they do so, either for pride or gain, will bring nothing but harm and sorrow to the natives and conscious degredation to themselves." These are not the words of a tyro but of a man who has been a part of English government in India and has had abundant occasion to study the oriental character and the most scientific and systematic attempts to Europeanize orientals. Among well informed people it has been for years understood that England lives in constant expectation of another Indian revolt, that her civil regulations, in the main wise and just, are obeyed only because of the bayonets behind them, that missions in India have never taken any hold upon the masses and of late have not been holding their own, in short that Englands attempt to "civilize" India was just what Mr. Johnston declares it to be,a dismal failure. It will be well enough if this nation goes to the experience of others for guidance at what is really a crisis in its existence instead of to the jingoes hypnotized by bigness, to politicians eager for a wider field and more federal patronage, to dreaming sociologists who long for an opportunity to try their rose-hued theories in practice, or even to over zealous churchmen who imagine that the acquisition of the islands will be speedily followed by a complete revolution in the characteristics, instincts and ideals bred in the Malay until they are as much a part of him as his color. Mr. Johnson suggests that in case of American annexation we may be able to solve the problem of government as the people of the south have solved the race question—by helping instead of abusing. But the cases are hardly analogous. The southern negro had the advantage of several generations of life among our people. Naturally imitative, had he in his expatriation and partial isolation from his kind, been trained to his master's ideals so far as he had ideals at all. He continues to live among our people and to frame himself upon Anglo-Saxon models because there are no others. But in the cases where the American negro has returned to his native Africa and remained for any length of time he has shown unmistakable tendencies to revert to the breech-clout and the fetich. Let it not be supposed then that if we hold the Philippines to rule the people they will always peaceably submit or that if we undertake to help them rule themselves it will be other than a difficult and a thankless task. They will prove a constant source of annoyance, of expense, of weakness to us—of strength and satisfaction never. And what applies to the Philippines applies to Hawaii, and largely to Cuba and to Porto Rico.

There are some men hampered with a natural tendency to make a Baalam's mount of themselves—and like Baalam's mount they are usually given to the use of language,which makes them all the more conspicuous. It is very much to be feared that in the exercise of that wise discretion which has lately rendered Mr. McKinley's appointments so illustrious he has hit upon one such man viz: Brigadier General Arnold. Some one reported to his brigadiership that North Carolina troops were begging and stealing in Jacksonville, and without making any investigation of the facts he rushed into an order thereby giving the matter a wide publicity in those papers willing enough to hawk any scandal upon the south and its people. We are not aware what state is privileged to claim the distinguished honor of Mr. Arnolds nativity, nor do we know whether he is a northerner or a southerner. But we do know that in giving the northern press an opportunity to insult the men of this state, in and out of the ranks, at a time when better feeling was coming to prevail Mr. Arnold is most offiensively and unmistakably an ass.

Mecklenburg people are exercised because of one C. W. Lewis, of Boston, says that good old county did not "declare independence" but "explicitly renounced obedience to His Majesty's government." Tut, tut, good friends, 'tis only the difference between English and Bostonese.

The final embarkation of the Santiago expedition must have been received with a sigh of relief by the foreign military experts who have been fuming and fretting at the delay.

A great many people will now be given an opportunity to join the ranks of the beatific bondholders.

Notes of The Prowler

It has been the observation of the Prowler, and he feels sure of others also, that there are no more courteous railroaders in the country than the people of the C. F. & Y. V., from manager to flagman. Greensboro people are apt to think of the C. F. & Y. V. as, in a sense, "our" road and should take pride in the above fact accordingly. The courtesy of the manager doubtless accounts for the courtesy of the flagmen. It is a matter of common comment that there is all the difference in the world between the bearing of employees of different roads toward patrons. There are roads where insolence and rudeness are the rule and courtesy quite the exception. Happily there are few of that sort in the south and none in this state.

***

When the new schedule on the ten-mile-long road from Wilmington to Wrightsville beach goes into effect so the hungerer after salt air and salt water can leave at noon and get down in time for dinner the beach should have a number of Greensboro people who want a day off. As it is now the wayfarer is compelled to stay in Wilmington all night and there is the rub. There is only one hotel, the Orton, and that wears the shabby-genteel air that speaks eloquently of better days, now somewhat distant. Evening and morning the hapless wayfarer to the beach is given an opportunity to get back what the mosquitos take out of him at night but it is a fruitless struggle—at the Orton. Signs are not wanting, however, that the mosquito is provided with a bill of fare eminently to its liking and the uplander detects no coyness or diffidence in its method of falling to. Carefully prepared holes in the netting show how solicitous is mine host to see that none of his guests, not even the mosquitos, shall lack for sustenance. The charges are ten cents an hour for the accompanying orchestral performances until sleep or death ensues.

***

The hotel at the beach is under the experienced care of Manager Campbell, of the Central of Charlotte, and he spares no pains to make his guests comfortable. A large number of Charlotte people followed him to the beach which shows that, however it may be with the prophet, the good hotelist is not without honor in his own town. There is enough life to keep the tired man from getting lonely and not enough noise to keep his nerves from relaxing. On Sundays Wilmington sends down train loads to the surf and dinner, both of which are excellent.

***

It is not only in winter that the "fields look brown and bare," to use the oft used poetical phase that is not poetical. They can look as brown in June as in November, at times. Through the southeastern section of the state there has been no rain for nearly six weeks now and the result must be very depressing for the farmers. Crops are woefully behind. The ever present cotton plant is "possum eared," as the growers say, and the young corn is parched and yellow. Certainly the outlook now is far from encouraging.

Mrs. Joe Person;

Your medicine has saved me (I am sure) years of suffering and heavy doctor's bills. When I began to take the Remedy I was sick all the time with troubles peculiar to my sex. I had run down until I only weighed 115 pounds. I took ten bottles of the Remedy, and am now a well woman and weigh 170. I cannot express my gratitude to you and wish suffering womankind everywhere could be induced to give it a fair trial. I have had seven children, have lost three trying to raise them by hand, and raised three on the bottle. The baby I have had since taking Mrs. Joe Person's Remedy is the first one I have been able to nurse from the breast, and it is a fine, fat baby. Every nursing mother who suffers from any woman's trouble ought to give Mrs. Persons' Remedy a fair trial. Before taking it I dragged through my work, now I do it. It gave me good sleep and appetite and put me in perfect health. My neighbors call Mrs. Person's Remedy "Mrs Thompson's Remedy," because I sing its praises so much to everybody.

The New Companies.

The adjutant general spoke today about the organization of companies at the various points whence state guard companies have volunteered. He said: "I will get to work on this business now. Four hundred and fifty rifles have been sent back here from the First Regiment at Jacksonville, and these will be sent to the various points. At Charlotte Captain Gormley's company will be recognized; at Winston Captain Lorenzo Norvell's; at Shelby there are two companies applying; at Asheville three or four are applying, and we will select the best one; Tarboro will have one largely formed of the old company; at Goldsboro Captain D. M. Hardy's company is recognized; at Wilmington Captain T. C. James has already received a commission; Fayetteville has an organization and arms; at Statesville a company is forming; at Durham C. B. Green has been commissioned as captain; there will be a company formed at Greensboro, as that is a point very desirable to be covered."—Col. Olds' correspondence.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by C. E. LYNCHED IN PUBLIC SQUARE.

Young White Man Lynched For Murder of a Farmer's Girl.

Great Bend, Kan., June 13—In the public square, fronting on the principal business street of the city, a murderer was lynched at 8 o'clock this evening by a mob of probably 500 persons. It is estimated that at least 1,000 men of Great Bend's population of 2,500 persons witnessed the tragedy.

The victim was John Becker a young white man, who on April 8th killed Myrtle Huffmeister, the 16-year old daughter of William Huffmeister, a farmer living midway between Great Bend and Ellinwood.

Becker, was employed by the farmer and the tragedy followed the girl's refusal to accept his advances. When she came to the stable in the evening Becker shot her to death, after which he set fire to the farmer's stables and escaped. On April 13th a posse of farmers captured the murderer near St. John, Stafford county, and he was kept for a time at Hutchinson.

GERMAN SHIPS AT MANILA.

Spain Hopes That it Will Turn Out to Her Interest.

London, June 13—The Berlin correspondent of the Telegraph says the entire German East Asian squadron seems to be concentrating at Manila. The ships now there are the Kaiser, Kaiserin Augusta, Irene and Comoran, with a total of 1,605 men. It is evident Germany is resolved to protect her interest in the Philippines, as German firms in Manila petitioned the Government to do some time ago.

A dispatch to the Standard from Madrid says a hopeful impression has been created in political and financial circles by a rumor that they intend to make demonstration favorable to Spain. The Press affects to believe that something is brewing in Germany that may be advantageous to Spanish rule at Manila.

The flagship San Francisco went aground off Highland Light, Mass., yesterday morning, but at 6 o'clock last evening was floated off without damage.

The Paris correspondent of the London Post says the days of the Sagasta cabinet are numbered.

gives good blood. It is a nerve strengthener and restorer, the efficacy of which cannot be over-estimated; when it is learned that its absolute freedom from poisonous drugs or opiates, makes it safe for use in the hands of sick or inexperienced persons, there is an increased appreciation of it. JOHNSTON'S SARSAPARILLA is a specific for impoverished or impotent nerves; it feeds the nervous system to high health, provides for physical and brain endurance, cheerfulness, happiness and energy.

Our thirty-six page illustrated book contains some interesting pages on Nerve Exhaustion. It is free for the asking. Quart bottle, $1.00.

A new advertisement by Matthews, Chisholm & Stroud is before you in the Telegram today.

J. Giles Foushee spent a day or two with his family here and returned to Glendon today.

If you want to secure a loan read the ad. of Wharton & McAlister on first page and see the amounts listed.

Nine recruits from Morganton for the Second regiment passed through at noon today enroute to Raleigh.

J. J. Thornton and A. H. Alderman have gone to Wilmington to attend the meeting of the Grand Lodge K. of P.

The Eagle foundry buildings are nearing completion. They are much larger and handsomer than were the former buildings on that site.

A change of diet for summer is in order and it is often a difficult task to decide what to have. Read Lindau's ad perhaps there is a suggestion there that will help you.

All members of the first baceball team are urgently requested to meet at the park every afternoon at four o'clock to practice and get in playing trim for the game with Concord next week.

The work of building Mr. John A. Hodgins' flats on South Elm is progressing nicely. When completed a large gap will have been filled and the appearance of that portion of the street greatly improved.

We take pleasure in directing your attention to the advertisement of Messrs. Jenkins & Hendricks ' excursion to Norfolk and Washington. It will leave June 21st and return June 24th, affording a most delightful trip.

We call your attention to the new advertisement of the Hotel Clegg Barber shop in this paper. All patrons get a free smoke for the next 60 days. This is a new departure in the barber line in this city. Read the ad and call on the proprietor, Mr. Rhodes.

Chief of Police J. A. Wall, of Morganton, passed through today with W. E. Houston who sometime ago deserted from Co. C. Second Regiment, N. C. Houston was carried back to Raleigh where he will be tried for desertion. He is about 18 years old.

Realizing the importance and value of printers' ink in doing a hustling business S. E. Hudson today takes double his former space in the Telegram to keep his goods constantly before the people of Greensboro. We congratulate Mr. Hudson on his increasing trade.

Recruits For Company D.

Sergeant Watlington today sent eleven recruits to Raleigh for company D of the Second regiment. He has received orders from Col. Burgwyn to raise as many recruits as possible. Those who left today were: D. W. Robertson, electrician, Greensboro; T. F. Boroughs, farmer, Harpers X Road; W. H. O. Smith, painter, Greensboro; Clarence Scott, clerk, Greensboro; T. C. Allred, farmer, Greensboro; C. G. Weinand, farmer, East Bend; Jesse L. Alderman, plumber, Greensboro; A. L. Cunningham, book-keeper, Greensboro; Ira B. Iseley, carpenter, Greensboro; Robt. J. Green, farmer, Chatham county; Will Forbis, laborer, Greensboro.

These recruits will enter Captain Percy Gray's company, now one of the best drilled companies in the regiment.

Carried to Morganton.

O.B. Murchison, Esq., of Pocket township, Moore county, was in the city last night enroute to Morganton hospital, having in charge Miss Minnie Henley, whom he was carrying there for treatment for mental aberration. Her mind has only been effected a few weeks and it is hoped she will be entirely cured. Overwork and hard study are supposed to be the cause.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

As to the Post Office Nuisance.

The Telegram disclaims any intention to do Mr. Glenn an injustice in regard to the crowd of loafers who roost in front of the post office. It supposed the post office property was under Mr. Glenn's general supervision. It also appreciates the gallantry, political and otherwise, which urges Mr. Glenn to rush to the defense of the negro when no attack has been made upon the negro. The intelligent colored people of the town understand perfectly that the Telegram does them scrupulous justice, that in matters of any importance its columns are always open to them. The loafers at the post office who defile the sidewalks were referred to as colored because they happened to be colored. That also intelligent colored people, and others, understand perfectly. If any injustice has been done the colored man there are plenty of the race in Greensboro abundantly able to take up the cudgels in his defense and the Telegram is quite willing to print such defense. Public justice is not less important in its eyes than public decency.
